Sightreading 101
Core Competencies for the Successful
Development of Sightreading Skills

MKT ((OO)) RADAR SIGHTREADING PROCESS

HOW IT WORKS...

The ability to read music on sight is one of the most important assets any musician can possess. In addition to developing the appropriate skill set for sightreading, a predetermined sightreading procedure can be beneficial to both ensembles and individuals. This involves "practicing" the art of sightreading. The acronym MKT-RADAR (MKT ((OO)) RADAR) assists learners in remembering the elements of this methodical approach to sightreading preparation.

Features include:

- Introduces a step-by-step technique for effective sightreading
- Progressive and comprehensive curriculum addressing the various music literacy skills to sight-read efficiently
 - Serves as instructional "text book" for instrumental classes
 - Assists in meeting district, state and national standards
- Makes instructional assessment more efficient and easier to achieve
 - Learning outcomes and assessment material make class preparation more efficient and can be adapted to fit curriculum
 - Rigorous, relevant and measurable instructional material for your band curriculum
 - Learning outcomes can be adapted for school district, state and national learning and assessment models as needed
- FLEXIBLE: Competency Sets can be used for ensemble or individual warm-up, or individual elements can be incorporated into existing warm-up routine
 - Instructional materials can be adapted to rehearsal schedule
 - Use with any size group and with any instrumentation
 - Provides challenging, but fun-to-play educational material which can serve as (or supplement) your daily routine
 - Use as a supplement for individual study, adapt for chair placements or progress evaluation
 - Percussion can be played by any 'battery' instrument reading from either line
- Designed for series implementation after completion of a standard "beginning band" method book
- Special End-Of-Instruction (EOI) assessment packs are available

BEST SELLING BARNHOUSE BUILD-A-BAND SERIES PUBLICATIONS

By Ed Hucceby

The **Build-A-Band Series** provides educational and enjoyable music for bands with incomplete or unbalanced instrumentation. Written using just four or five parts (plus percussion), these effective arrangements will work with any combination of brass, woodwind, string and percussion instruments as long as you distribute the parts so that each of the five parts is covered.

All of the publications in the **Build-A-Band Series** have been arranged to be playable with any instrumentation as long as each part is used: 1st Part, 2nd Part, 3rd Part, 4th Part, and Bass Part. (Please note: In some of these arrangements the 4th Part, and the Bass Part are the same, making it possible to play those arrangements with only 4 parts.)

Also included are various percussion parts which are optional, but will add a great deal to the musical effect. The optional keyboard part can be performed on piano, electric keyboard or any other keyboard instrument, and will help fill out the sound of a small group. Optional guitar, mallet percussion and Timpani parts are also included where appropriate.

Flexible musical works for challenging instrumentations!
